The deposits were received by this International Depository Authority and have been accepted.

The strains are available to the scientific public upon request as of May 08, 2008.

If the deposit should die or be destroyed during the effective term of the patent, it shall be your responsibility to replace it with viable material. It is also your responsibility to supply a sufficient quantity for distribution for the deposit term. ATCC® will distribute the material for 30 years or 5 years following the most recent request for the deposit, whichever is longer. The United States and many other countries are signatory to the **Budapest Treaty.**

We will inform you of requests for the strains for 30 years from date of deposit.

The deposit was tested July 29, 2008 and on that date, the cultures were viable.
